Day 5 of AVID College Facts. Today's focus is a mix of random information that doesn't fit into any specific category, but is interesting to know.

Did you know that....

- More girls go to college than boys - 775,000 male students enroll in college each year compared to 1,575,000 female students. Go ladies!!
 - There are 60 all-female colleges in the country, but only 4 all-male universities. Female power!!
 - Nearly 5,000 colleges and universities exist in the United States. Together they grant more than 2 million degrees per year. With close to 5,000 colleges and universities in the U.S., the possibilities are endless.
 - 14 of the 25 largest sport stadiums in the world belong to American college football teams.
- There have been many celebrity commencement speakers at college graduations over the years, one of the most interesting, however, was Kermit the Frog—he spoke at Southampton College in 1996. Now that must have been really cool to hear!
