Announcements

We continue honoring Latinos this month with today's fact: Did you know Latinos have fought in every war? According to the Minority Veterans Report by the Department of Veterans Affairs, over 1.2 million vets in the U.S. are of Hispanic or Latino descent. However, the military sacrifice and service of Hispanic Americans stretch back to the Revolutionary War. Historically, Latino soldiers have fought in every single war, both on and off American soil, many times without the benefits and pay of other American soldiers.
